Turned out to be fire from sumb. (U) To Bde from Bn. XM191 fired on 30 530 Nov 30 2230 2231 Bde JRF perimeter of LZ Lois, AQ 844144. Target was a dirt mound and clump of brush at a distance of 300 meters. weapon could be used effectively against troops in bunkers and wooded area. Weapon has a good bursting radius of approx 25 meters. Disadvantages- the weapon doesn't seem feasible as a primary weapon in close contact. Several comments were also made reference difficult and slow loading and trigger play while firing. Another problem in close contact is the back blast problem.
